Gasoline	2.25	Gadsden (Okla.)	2.25
Gasoline	2.25	Gas Creek	2.25
Gasoline	2.48	Rig Muddy	2.25

## Storm Damage Severe

There is much anxiety among the oil men as to the effect of the great storm on the gulf coast might have had at Goose Creek and adjacent points on the coast.

The entire country down there is unprotected, except Galveston, where the sea wall remains to hold off the storm and minor damage is occurring as to the loss of lives among the oil men drilling along the shores of the Gulf of Mexico.

## In the Market for Tank Cars

The Union Tank Car company is in the market for 1,000 tank cars. This is made necessary by the large increase in the demand for petroleum and its products. It is claimed that the company has not been in the market for two years when a large order was given, the last of which was delivered some months ago—oil cuts Derek.

The above is interesting, as showing the great demand for tank cars at this time, and the reason that the order was offered to the General American Tank Car company, who turned it down because their interests are always with the independent refiners.

This has happened before, and this time it came to the knowledge of the oil editor in a roundabout way, and looks like genuine loyalty, to the independent refiners.

Late News From Beggs

The H. F. Wilcox No. 5 on the Banks farm in 26-15-11, 500 feet west of the original well, is showing for a bigger producer than any of them and is flowing steadily, but no estimate has been obtainable up to the present writing.
